Justin Jackson

Marketing Program Manager · Cross-Functional Operations · AI Workflow Systems

Austin, TX · justin@xfnl.studio · xfnl.studio · linkedin.com/in/justin-jackson-pm

Profile: Cross-functional program manager and workflow builder with 8+ years spanning marketing program management, creative operations, and production pipelines at **Commerce (BigCommerce, Feedonomics, Makeswift)**, **Apple Inc.**, and **xfnl Studio**. I've sat on both sides of the request, from front-line support and commercial video production to owning org-wide Asana architecture and AI workflow automation.

Selected Systems & Workflow Architecture

Asana Marketing Intake & Routing OS: Co-designed and co-built our Asana implementation from scratch with the team that runs intake across ~50 contributors (1,132 parent requests, 5,080 subtasks, 3,555 completed deliverables), driving a **~3x quarterly throughput lift** (internal measure), lifting 2+ weeks advance notice from 35% to 54%, and cutting median request-to-delivery cycle time from ~30 to ~22 days.

Asana Tasks Family Sync & AI Tooling (Claude Code + Asana REST API): Built custom Node.js automation that syncs creative asset links (Figma, copy docs, image deliveries) and dependency status across parent requests and sibling subtasks automatically, alongside brief-to-campaign task generation pilots, AI intake triage, and automated status reporting.

Waves & Automated Post-Production Assistant (APPA): Designed and built a three-machine, four-lane local LLM inference stack (Waves) and an AI junior-editor pipeline (APPA) that transcribes, grades, and assembles multi-camera shoots into Premiere Pro and DaVinci Resolve timelines, saving about 15 hours a week (estimate).

Professional Experience

Commerce (BigCommerce, Feedonomics, Makeswift) · Marketing Project Manager

Aug 2025 – Present · Austin, TX

Sole Marketing Project/Program Manager supporting ~50 people across 4 GTM pods and 8 Creative & Shared Services teams

- **Cross-Functional Program Execution:** Run end-to-end marketing programs across BigCommerce, Feedonomics, and Makeswift, aligning Product Marketing, Brand, Creative, Web, and Demand Gen from intake through launch.
- **3 Analyst Report Programs & 3-Day Rapid Launch:** Managed 3 analyst report programs from submission to launch; pre-staged ticket templates and contingency plans so when an analyst report dropped two weeks early, we shipped the live executive landing page in **3 days** instead of 14.
- **Product & Customer Programs:** Partnered with Product Management to run AMER and EMEA marketing-moment launches for BigCommerce Payments (launched on time Apr 3, 2026; thanked by name by the CEO in the company-wide launch email) and led Commerce Awards 2026 to 296 customer submissions (+29% YoY).
- **AI Enablement & Governance:** Founded a weekly cross-functional AI forum (~30 attendees), built the monthly company-wide AI performance deck, and presented our AI workflow results to the full marketing org at an All-Hands when the CMO passed me the mic.

xfnl Studio (formerly Carbonrain Media) · Founder & Producer

Apr 2024 – Present · Austin, TX

- **Commercial Video & Post-Production Lead (Client: CreatorIQ):** Pitched, scoped, and delivered commercial video and motion-graphics engagements for enterprise B2B launches, from creative briefing and SOW through editing, sound, and repeatable review workflows.
- **Showrunner & Pipeline Builder:** Credited Producer on *Ben Windle Shoots His Shot* (@BenWindleShootsHisShot); built APPA and proactive voice-triggered task routing across Apple Reminders and Asana.

Apple Inc. (Contract via TEKsystems) · Creative Operations & Publishing Specialist

Apr 2024 – Aug 2025 · Austin, TX

- Co-architected a standardized release QA review framework across Apple TV+ and Apple Music publishing workflows, coordinating multi-team launch checklists and release hygiene under high-security standards.

BigCommerce · Marketing Project Manager (2023) · Video Producer & Marketing Liaison (2018 – 2023) · Tech Support (2017 – 2018) **2017 – 2023 · Austin, TX**

- Grew from front-line Tech Support (99% CSAT) to Web Content Publishing Specialist (2018 – 2019), Video Producer & Marketing Liaison (2018 – 2023), and Marketing Project Manager (2023), building the intake habits and creative-to-ops bridges that power my program work today.
